## Portfolio

### Learning Management System

**Client:** Fusion Microfinance

**Team:** 3 Developers

**Timeframe:** 3 Months

**Technology:** Ionic, Angular, MongoDB, NodeJS

Fusion Microfinance is providing financial services to unsecured and underserved women in rural and semi-rural areas across India. For Fusion Microfinance we developed a learning management system for their employees in which I am responsible for process and API building.

### CoWorking Application

**Client:** WorkinBuddy

**Team:** 4 Developers

**Timeframe:** 6 Months

**Technology:** Ionic, Angular, Firebase

WorkinBuddy is a platform that connects restaurants, cafes and other public working spaces with corporate clients and students groups to provide a user-centric platform that enables browsing, scheduling and check-ins to public working spaces across the UAE region.
